Dear Patient,

As a part of our ongoing commitment to serving you better, Community Prescription Center has recently joined Walgreens, which, for more than a decade, has been dedicated to expanding its services beyond traditional retail pharmacy to patients with chronic, complex conditions.

***We will be known as Community, A Walgreens Pharmacy and will continue to provide the same high-quality personal services you have always received from us, including:***

- Confidential medication consultation from specialized pharmacists
- Personal delivery of medication using our own employees for timely, dependable service
- Confidential BIA (bioelectrical impedance analysis) testing
- Personalized review of Medicare Part D options
- Coordination of insurance benefits, including Medicare, Medicaid, private insurance and ADAP

The same pharmacy staff you have come to know and trust will still be available to answer your questions. And if an emergency should arise, we can often fill your prescriptions the same day or within 24 hours. We'll also continue to arrange easy prescription transfers from a different pharmacy, and to meet *all* of your prescription and over-the-counter medication needs.

As we make this change, be assured that your care will *always* be our top priority. We look forward to serving your pharmacy and related healthcare needs in the future.

Sincerely,

Steve Pattison

Community Prescription Center
