Dear Jeffery,

Congratulations on being named to this year's "INROADS Top 30" client list. As one of our most valued corporate partners, I want to personally thank you and The Walgreen Company for providing career opportunities for 58 of the brightest, diverse college students and future executive talent this past summer.

I understand the impact of human resource challenges in today's workforce. Not only is the consumer population changing demographically with respect to ethnicity and culture, but we are simultaneously preparing for the effects of retiring executive leadership and management. It gives me personal satisfaction to know that The Walgreen Company has partnered with us to strategically address both.

We commend you for forging the path for other business leaders to proactively address these trends, and we commit to continue providing you with star leaders who have the essential qualifications and savvy to build business today and in the future.

For 37 years we've been the nation's largest non-profit source of diverse talent, and we promise to continue perfecting our service, by providing you with the talent that delivers immediately upon your investment and meeting your strategic business goals. Currently, over 4,000 young men and women are enrolled in the INROADS program, and are fast becoming the most respected contingent of future executives globally. We look forward to our continued partnership and business success!

Sincerely,
