

FREE COVID-19 vaccine booster doses now available.*

The CDC recommends a booster dose for fully vaccinated people who received their second dose of Pfizer-BioNTech (Comirnaty) COVID-19 vaccine at least 6 months ago. Health and eligibility requirements include:

- Ages 65+
- Individuals ages 50–64 with underlying medical conditions
- Individuals ages 18–49 with underlying medical conditions, based on individual benefit and risk
- Individuals ages 18–64 who are at an increased risk for COVID-19 exposure and transmission because of occupational or institutional setting, such as healthcare and essential workers, based on individual benefit and risk
